Our Holistic Center offers parents a safe and nurturing environment, not only for their child but for the entire family. Our Family Resource Counselor will assist parents with social services, education, first time home buyers, identity fraud, social security benefits and all services to benefit the family.

Project Approach— Children lead their teachers in planning and initiating learning. Through observation and discussion children and teachers embark on child initiated discoveries on topics that include, transportation, construction, insects, ocean life and many more. We follow the children's lead! When children have ownership of what they are studying are excited to go to the next level, the knowledge STICKS! Join us during this time of discovery!
